BRAHMINS:

THE SPIRITUAL BROTHELS

Handbook To Kick Brahmins Out Of India

Meaning of Brahman: Bramha(ब्रह्म) – soul + hana (हन/हन्) – killer - soul killer

Brahmins were wanderers and nomads roaming in the Europe entered into India in 1600 BC. They called themselves aryan and spoke in an european language called sanskrit. Brahmins were involved in doing magics and mantras for which they were thrown out from Europe. Slow travel of nomads into India after being thrown away from Europe lead to enter into India. They started their life by appeasement of Indians for their survival. Brahmins survived in India by appeasing kings of India.

The first Emperor of India Mahapadma Nanda was attacked by traitor chanakya with help of greek, scythian and other kings from outside india. He wanted king to be dethroned as he was a shudra. The truth was, the king who alexander feared to fight was not chandragupta but Mahapadma Nanda (a shudra Emperor).

Questions arise: how was chanakya affiliated with foreign kings?

The theory of inescapable fallibility: No matter what you do you will never be a hindu. Being a hindu is not defined by mad brahmins. (they themselves have no idea) (making indian blood slaves of brahmins by using religious providence).

The first traitor:

Chanakya acting as minister of chandragupta influenced him to do violence and with advent of ashoka the violence was abhorred and buddhism was accepted as state religion.

Buddhism was accepted by all India and went overseas and made its place in Indonesia, Malaysia, Japan, Myanmar, Mongolia, china and other Oceania countries almost reaching a 1.5 billion population. Mauryan kingdom (shudra) in the mean time has spread allover India and to the present day afghanisthan.

Ashoka's dependence on dhamma (peace) was not accepted by brahmins who were living on indians fighting and killing each other. Brahmins acting as ministers of Indian kings have usurped it through second traitor pushyamitra sunga, a brahmin, by killing brihadratha the last mauryan king. The brahmins started dividing the indians into castes and varnas after usurping the mauryan throne, started social evils in India which were not earlier seen in India.

Killing of buddhism by brahmins:

Buddhism prevailed till the 72 AD in the fourth buddhist council, where brahmins pushed in their mantras(meaningless shouting) which had no value till then in buddhism. The plot was to make buddha a god and start doing pujas to him which will make the resistance of buddha against hindu gods blurred and take away the the human buddha from people. Most buddhists not knowing the plot of brahmins have accepted the mahayana buddhism which made human buddha into god. The second phase started with adding all other gods and bring back mantras and thereby the fading caste and mantra system into the fore of Indian scene.

Buddhism died with making buddha the God. Brahmins started dividing the mauryan kingdom into numerous castes.

The south Indians (shudras) unaffected by the brahmanism were following jainism and buddhism.

The mantras or bhajana of brahmins have been for gods, kings and all indians to appease them and loot their money. The Indian people donot have the habit of doing bhajana for anybody which differentiates them from begging brahmins. The south indians are straight forward and talk on the face till today.

Brahmins act as ministers to Indians and usurp the money from them and wait for time to dethrone the king.

Spiritual Brothels:

A woman has one husband. Imagine a woman who has 100 husbands and has affairs with everyone and returns home, whose wife she can be called. Brahmin does puja to their god and when other god comes (they don't know or not aware), they start doing puja to them in fear the people who found the god will start doing puja themselves.

Who is the real God of brahmins? Why are they doing puja to Indian Gods?

Puja started with Ram killing the brahmin Ravana. Fear of death, brahmins have started doing puja to Ram (Indian). In gradual changes they have taken place of God and named new god called brahma as central soul. Brahma didn't exist in the Greek (brahman religion) literatures and is unrelatable.

Caste system:

The divided castes were not allowed to unite to prevent harm to usurped brahmin kingdom.

Caste:

The caste is fake cancer report developed by brahmins to mentally cripple indians and restrict their area of work. It's like giving a fake cancer report to person who has no cancer. Caste doesn't exist which has been created by brahmins to do pujas to all castes and usurp money from all castes at once.

Pujas done are or good or bad: some have level of crudeness to infinity:

Ashvamedha Yajna is a ritual performed by Queens (particularly by chief queen) for fertility and also to gain power in the kingdom. The Ashvamedha Yajna includes slaughtering the horse, then follows the queen's intercourse with the horse, then the horse is cut into pieces and cooked.

It is very hard for sane man to quote this so: (at your risk):

Separation of God from Indians in a Gradual fashion:

Gods have been separated from people by building temples. Brahmins have taken the place of worshipper and distanced the shudras from god. The gods place has been taken by brahmins and all the things to be done to god has been swallowed by brahmins. Shudras have been falling on the feet of brahmins who have taken place of god from the place of being spiritual middle men.

Questions: why were shudras not allowed to worship god (sometimes their own god).

Dalit religion Conundrum:

Dalits were not allowed into the temples and not allowed to read any books of brahmins. The question arises if dalits were not allowed to enter brahmin temples how are they being appended the religion of hindu on them.

Dalits are pure souls who have no religion. But brahmins seem to append religion even to adivasis (who have never known any outside people).

How to get rid of the caste system:

Every dalit and shudra in India can do all these things done by all the castes below without an exception – every dalit(normal human) has brahmana, kshatriya, vaisya, shudra abilities in full which were restricted by brahmins by lies.

– If any brahmin or anyone stops or says you cannot do this – your answer should be shut your mouth and go back to your country. This is our country we chose what we want to do and what not!

– The one way to end caste system is dalits should cut the head of every person who talks about caste (on first word).

If you find any brahmin in India what should you ask – when are you leaving our country.

Sitting and eating castes (worthless castes)- liability on Indians) - Acharya, Agarwal, Khatri, Ahuja, Anand, Laghari, Patel, Reddy, Bakshi, Anthony, Babu, Arya, Balakrishnan, Burman, Bhatt, Bedi, Varma, Dara, Dalal, Chowdhury, Chabra, Chadha, Chakrabarti, Chawla, Ahluwalia, Amin, Apte, Datta, Deol, Deshpande, Dewan, Lal, Kohli, Mangal, Malhotra, Jha, Joshi, Kapadia, Iyer, Jain, Khanna, Grover, Kaur, Kashyap, Gokhale, Ghosh, Garg, Dhar, Gandhi, Ganguly, Gupta, Das, Chopra, Dhawan, Dixit, Dubey, Haldar, Kapoor, Khurana, Kulkarni, Madan, Bajwa, Bhasin, Chandra, Chauhan, Deshmukh, Dayal, Dhillon, Goswami, Goel, Mallick, Mahajan, Kumar, Mani, Gill, Mannan, Biswas, Batra, Bawa, Mehta, Mukherjee, Saxena, Modi, Shah, Ray, Rao, Purohit, Parekh, Thakur, Sharma, Seth, Sachdev, Ranganathan, Puri, Pandey, Naidu.

The castes mentioned below should make the people above assholes to work for their food – any choudary or any chieftain ask him to work donot let them sit and eat.

All the castes mentioned above form the mauryan kingdom. Mauryan kingdom extended from mynmar to afghanistan ruled by Indian King Ashoka (named by rascal brahmins as shudras).

The proof of non-indian origin of brahmins:

Language

Ever wondered how can you write any word spelled in english without any issue in hindi or telugu or tamil or gujarati or bengali. Hindi is language of the middle east than the indian territory. Tamil is the only Indian language.

The alphabets of hindi are actually the phonetics of european language. All the languages of europe have same phonetics used by sanskrit. English and sanskrit are like tamil and telugu of south india. They are made from same language but differentiated due to separation of people in the time.

The letters a e i o u are the same as a aa e ee eh eh i o o ou of sanskrit and hindi.

The letter a is spelled as hindi अ, and, e as hindi ए and ई and i as इ, o as औ, u as उ.

Letter the k is spelled as क, t as ट, p as प, d as ड, b as ब, letter v as व, s as स,

In the word bat b is spelled as ब, and in the word pan p is spelled as प,

The english word me in hindi is मैं, the word brother in sanskrit is भ्राता,

The english word name in hindi is नाम, The spanish word 'Tu' means you in hindi.

Letter spanish word que (pronounced as punjabi 'ki') in hindi is क्या, the spanish words 'que hora' (pronounced as 'ki hora') in hindi means 'whats the time'.

The italian word veer in hindi means man or वीर, in telugu వీరుడు (sanskrit telugu).

The hindi word और is 'or' in english. The hindi word या is 'e' in latin.

The german word arisch in hindi means आर्यन

All the languages of europe and middle east have the 'अ आ इ ई' in their grammar including, spanish, italian, lithuanian, hebrew, arabic, urdu, dutch, portugese, and latvian.

Same language (But still Indians don't see brahmin serpents in India, who spread English as unknown language to them (show fake hatred towards english))

Mantras: These are loud shoutings of brahmins in their own mother tongue. They shout good words and bad words loudly in their own mother tongue.

Symbols:

Swastik symbol used by brahmins indicates the aryan race in German. 

Trishul of brahmins is weapon of sea god Poseidon of Greek religion (brahman and greek gods are same)

brahmanism can be called greek religion.

Brahmanic religion is Greek religion:

The Greeks created poetry before they made use of writing for literary purposes in 6th century bc, and from the beginning their poetry was intended to be sung or recited (vedas). Homer, Hesiod, Sappho, Pindar and others are famous Greek poets. Homer has written **Odyssey** and **Iliad**.

Chronous, Ouranous, Posideon and Hedes:

Chronous as the name indicate is the god of time, a function identified with Mahakala (the great god of Time), viz. **Rudra-Siva**. Thus both Chronous and Zeus are mapped to Rudra-Siva. However another Rig Vedic god viz. **Yama** too does the function of time. **Ouranous** (Uranus) is identified with the Rig Vedic **Varuna**, the lord of the celestial sea (sky). **Posideon** (Neptune) is identified with the Rig Vedic **Pusan (Pusa-deva:- Posideon)** (language similarities- dei, deon, deva all means god(read earlier)) and **Hedas (Pluto)** with the Rig Vedic **Yama** (the god of time, justice and later the god of the underworld). the Roman god Neptune is also identified with the Vedic Apam-Napat (a god of the sacred waters (Apa)).

(The reason brahmins donot want sanskrit as national language of India. Somany realities and their identity will be known to Indians. They want hindi which is somewhat mixed with other languages as national language.)

vīryaśulkāḥ kanyāḥ: aspects of women's dependence in the Mahābhārata and in Old Greek sources

- Striking similarities to elements in ancient Greek literature, such as the archery trial in the episodes of Penelope and Draupadī.

In Sanskrit, “*rig*” means “*pean*”, “*veda*” comes from “**weid-*”, the same source of “*wise*”, means “*wise and knowledge*”. Thus “*Rig Veda*” is “*Pean of Wise*”

The real Indra:

Zeus and Indra: 'Zeus' is the most powerful God according to Greek mythology and 'Indra' according to the Vedas. From a study of both Gods described in Greek Mythology & Vedic Texts, one finds mention of striking similarities in their birth, appearance, romances, and adventures. Their heroism is demonstrated in physical as well as in spiritual deeds. Both have been associated with rain, thunder and lighting. Both Zeus and Indra are father figures and protectors with super powers. But for their immortality, they resemble human beings (Indra's hair, beautiful chin, arms, beard is described in Rig Veda 2.16.2, 8.85.3, 2.11.17 etc. the same is the case with Zeus as seen in old sculptures). They both show emotions of love, jealousy and anger. Both succumbed to the charms of pious mortal women and impersonated their husbands to seduce them. 'Indra' has 'Agni' and 'Pushan' as brothers; Zeus has 'Hades' and 'Posidon' as brothers. Both of them have many wives.

Beef eating:

The Rig Veda, he said, mentions that Indra asks to be served 15 to 20 cooked oxen. Citing the Shatapath Brahman, a Vedic text, and Yajnavalkya, an ancient philosopher, Bhaduri, said, "I eat it (beef) only if it is cooked till it is tender'."

How did brahmins stop eating beef. They never stopped. Buddhism which was effective during ashoka (shudra) who stopped the animal cruelty. Which forcibly turned brahmins into vegetable eaters under influence of shudras.

RSS:

Rss is a organization formed to support nazi movement of germany. Which believes in supremacy of nazi race. This is mostly dominated by brahmins as much can be seen.

Let me just direct your attention once more upon these untouchables, fifty or sixty millions of them, that is to say more than the whole population of the British Isles; all living their lives in acceptance of the validity of the awful curse pronounced upon them by the Brahmins.

CHAPTER II:

THE STUPID BRAHMINS

Crimes of Brahmins

Rolling over Brahman's Leftover food

Madey Snana' ritual in Kukke Subrahmanya temple - lower caste people roll on the floor over leftover food by Brahmin's on banana leaves so that they can get rid of various sickness. People blindly follow this ritual which portrays caste-based inequality. It is against human dignity and hygiene.

Baby dropping Ritual

Babies are thrown from the height of 30 ft from the ground in a ceremony. More than hundred babies are thrown from temple roof and are caught in a sheet held by people.

Cow trampling ritual

Men laying on ground so that their cattle can trample over them. Cows are decorated with colors, henna and flowers. The whole village gathers to witness the ritual. It is believed that all prayers are answered by Lord Pashupatinath during this ritual.

Ashwamedha Yagna

Ashvamedha Yajna is a ritual performed by Queens (particularly by chief queen) for fertility and also to gain power in the kingdom. The Ashvamedha Yajna includes slaughtering the horse, then follows the queen's intercourse with the horse, then the horse is cut into pieces and cooked. This kind of crudeness what is difference between chamars and original behavior of brahmins.

Ritual of the asvamedha yajna quoted from the Vedas (Satapatha Brahmana)

Rama's mom & co-moms participate in the queen-horse sexual ritual of the asvamedha in the Valmiki Ramayana. I. The sexual ritual of the asvamedha yajna quoted from the Vedas.

[Donot read this) (skip): (strong objectable actions): The priests supervising the asvamedha: the officiant (adhvaryu), overseer (brahman), cantor (udgatri) and the invoker (hotri). The king's wives which participate in the queen-horse copulation ceremony of the asvamedha: the chief wife (mahishi), favourite wife, rejected wife and the fourth wife. The Satapatha Brahmana, quoted below, offers clear instructions on how the queen-horse copulation ritual of the asvamedha is to be conducted; the king's chief wife (the mahishi) is to copulate with the carcass of the horse while the priests and all the participants curse each other in degenerate language: "A cloth, an upper cloth, and gold is what they spread out for the horse, and on that they 'quiet' him. When the sacrificial animals have been 'quieted', the (king's) wives come up with water for washing the feet — four wives, and a maiden as the fifth, and four hundred women attendants. When the water for washing the feet is ready, they make the chief queen (Mahishi) lie down next to the horse, and they cover the two of them up with the upper cloth as they say the verse, 'Let the two of us cover ourselves in the world of heaven', for the world of heaven is where they 'quiet' the sacrificial animal. Then they draw out the penis of the horse and place it in the vagina of the chief queen, while she says, 'May the vigorous virile male, the layer of seed, lay the seed';

this she says for sexual intercourse. While they are lying there, the sacrificer insults the horse by saying, 'Lift up her thighs and put it in her rectum.' No one insults (the sacrificer) back, lest there should be someone to act as a rival against the sacrificer. The officiant (Adhvaryu) then insults the maiden: 'Hey, maiden, hey, maiden, the little female bird ...' and she insults him back: 'Hey, officiant, hey, officiant, that little bird....' And then the overseer (Brahman) insults the chief queen: 'Hey, chief queen, hey, chief queen, your mother and father climb to the top of a tree....' She has as her attendants a hundred daughters of kings; they insult the overseer in return: 'Hey, overseer, hey, overseer, your mother and your father play in the top of a tree....']

EV periyar ramasamy naicker

At the choultries (resting places) adjoining the temple, free food was on offer to Brahmin pilgrims. When Ramasamy stood in line to partake of these meals, he was refused food because of his caste.

One day, out of desperate hunger, he decided to go in disguised as a Brahmin, wearing the sacred thread. Unfortunately, his moustache gave away his identity since temple authorities believed that holy texts did not permit Brahmins to have moustaches. He was denied food and pushed out into the streets.

Afflicted by unbearable pangs of hunger, Ramasamy had no choice but to eat the leftovers thrown into the streets. He realised, in shock, that the choultry which had refused him entry was built by a wealthy non-Brahmin merchant from Tamil Nadu!

Brahmin-only' township – Mahbubnagar, Telangana

Yellapragada Prabhakar Sharma, a native of Guntur district of Andhra Pradesh, had purchased 36 acres in Chegur village in Kothur mandal of Mahbubnagar in Telangana in 2011 and floated a Brahmin-only venture. Venture is to create a 'Vedagayatri Agraharam'-an exclusive estate where only Brahmins will reside.

Sharma promised to establish a community and wedding hall, a cow shed, vedic school, Brahmin IAS Academy, homeopathic and ayurvedic clinics and an old age home.

Baby dunked in boiling water

Bijalapur district of Karnataka 3-month-old babies are dunked in boiling hot water. Baby is lifted immediately but does sustain severe burns.

Rolling on their own food leftovers: South India

The food is eaten seated cross-legged on the ground. In the Made Snana tradition, the devotees finish eating the food and then lie on the ground and roll over the plantain leaves still containing the left-overs from the food. Practice is to relieve the devotees of health issues.

Female foeticide

Male babies were preferred because they provided manual labor and success the family lineage. The selective abortion of female fetuses is most common in areas where cultural norms value male children over female children for a variety of social and economic reasons.

200,000 girls – every year – 40,00,00,000 deaths in 2000 years – **killed by brahmins (more than the number killed by babur and akbar together in war)** – population equal to state of Uttar Pradesh.

Woman marrying animals:

Among certain sections of the Indian villages, there is a strong belief and faith that marrying animals would appease the Rain God and bring rain. Women with 'Mangal Dosh', natural deformity, cleft tooth are considered to be possessed by spirits. To get rid of such spirits many superstitious believers perform ritual of Human-Animal Marriage. To exorcise the ghost the possessed girl is forced to marry an animal such as a dog or a goat.

Mother banned from the wedding:

In some Bengali weddings, the bride's mother is not allowed to see the wedding. It is believed that the mother witnessing the wedding will bring harm on her daughter. Or the mother possesses the evil eye to harm her daughter's marriage.

Dowry:

Dowry (forcing woman's family to offer large sums of money) (very much practised for fun from mens view point and harsh time for womans family):

Sanatan dharma/Vedism/Bramhanism forcefully implemented Indians to a tradition when you marry the bride, the girl should be gifted by wealthy amount from her family to run a better life in groom's home. Brahmins who are poor also feel unnecessary guilt when they cant give money for the groom.

7,600 deaths per year - 1,41,33,000 deaths in 2019 years – **population equal to that of present delhi-killed by brahmins.**

Ancient thief behavior of Aryans:

Aryans cattle theives:

Page 111 of Wendy Donigers Book: As nomadic tribes, the Vedic people sought fresh pastureland for their cattle and horses. As pastoralists and, later, agriculturists, herders and farmers, they lived in rural communities. Like most of the Indo-Europeans, the Vedic people were cattle herders and cattle rustlers who went about stealing other people's cows and pretending to be taking them back. One story goes that the Panis, tribal people who were the enemies of the Vedic people, had stolen cows from certain Vedic sages and hidden them in mountain caves. The gods sent the bitch Sarama to follow the trail of the cows; she found the hiding place, bandied words with the Panis, resisted their attempts first to threaten her and then to bribe her, and brought home the cows (10.108).

The Vedic people, in this habit (as well as their fondness for gambling), resembled the cowboys of the nineteenth century American West, riding over other people's land and stealing their cattle. Cowboys in India are actually Cow boys (not horses).

Indians should know how these crude cattle herders became mantras chanting readers and pious people all of a sudden. Read further for answers. Ignorance of Indians is investment of Brahmins God Business.

CHAPTER III:

BRAHMINS: THE SPIRITUAL

MIDDLE MEN

India was able to remove middle men from almost all the areas of corruption. India has been through a slew of reforms since independence. Middle men were removed from agriculture, commercial market and many other areas of economy. The spiritual middle men were oversighted due to fear of God. The brahmins have used God for their benefit to terrorise people. Every wrong they do has been covered up by piousness cover. Killing a person and raping a woman by brahmin are all providenced by God for their benefit. Indians are falling on feet of foreign brahmins. Non-brahmins have been distanced from God. Brahmins acting like they are bringing something from god and slowly started acting like God.

Devotees taking blessings from pujaari rather than god. The transformation is brahmin to God and Goddess to namesake figure. There is no direct contact between Goddess and devotee.

Money eating serpents in between (pricing every visit). Why is reaching God linked with money. No hardwork just sits and eat.

Brahmins (foreigners) only puja.

Chapter IV

Why Caste is Dangerous

To Indians and not for Brahmins serpents

Taking caste name most of the people India have a family feeling. They feel it's their family or someone sometimes they can rely on. They completely depend for their career and job search on the caste basis sometimes. So why is caste dangerous?? Is it increasing our chances for better life or restricting us from connecting to the world. In a shorter view of personal benefits and (literally non-existent) caste, the things seem good and better.

Bigger group:

The people who see caste as a good thing are unable to see their bigger family called India. All the great powers of the world are working as countries, in contrast in India people work in smaller units called castes.

Being in smaller units and trying to overpower each other within the country has benefitted the outside countries to attack India. Brahmins (Europeans) who are not from India have made people of India vulnerable to foreign forces. The Indian kingdom under Ashoka and Mahapadma Nanda defeated the turkish rulers. After the advent of caste by the brahmins the attack of muslims kings couldn't be defended by the Indian kings. Brahmins weakened the country and allowed rajputs to enter India. The divided kingdom of India couldn't retaliate to the attack of Huns, Muslims and any other kings. Brahmins have weakened India and let foreign forces attack India. The Indian rule in afghanistan has been lost and Paksitan is today lost and occupied by afghans and turks. Kashmir is also lost by the present brahmins. They want to divide it in between brahmins and their bodyguard (dogs) castes. Brahmins have sided with british and hailed their rule and hated Gandhi (Father of Nation) for getting independence for India.

Information decrypted:

Today brahmins in power have allowed foreign companies to gain information of Indians. All the streets and every nook and corner of India is known by foreigners. China on otherside has their own companies vis-à-vis privacy. China has their own search engine and social media platforms restricted to China. Chinese are advanced in the hardware development. Indians have lakhs of software engineers produced every year. Yet we donot have search engine of our own or a social media platform. Brahmins have made all the information of Indians available to all foreign companies in India.

The caste doesn't exist actually in any form anywhere in the world. Caste develops an instant conflict with other people in India. Indians fighting with each other in fierce caste fights have lost their connectivity with the world making India a third world country. India is third world country as it is lost in its own caste battles originated by the dumb brahmins and their eccentric pujas (ashwamedha yaga).

India is being attacked by Pakistan on west and China on North and East.

People who think caste as a family are becoming xenophobic. Leaving your caste can attach you to bigger Indian family. You will be part of a bigger family called India (without brahmins). India which has ruled the subcontinent has lost its sheen with brahmin's god centered racism. Whole india will be your family (a bigger family to save).

The solution to the problem is removing brahmins from all high positions in India. Brahmins don't include black brahmins and non-hindi speaking brahmins. Remove brahmins from all the positions in India.

Muslims are the middle east brothers of devil worshipping and tantric brahmins (Europeans). **Muslims and brahmins act fighting and the people who lose their life are Indians.** The people fighting on behalf of the foreigner brahmins are also Indians.

Muslims and brahmins (Foreigners) have been fighting for unknown and fictitious reasons to confuse the indian aboriginals (land owners).

Indians have been the ferocious race of the world in the time of asoka and conquered subcontinent and half of middle east. The ferociousness has been directed towards each other by the deceptive brahmins in the name of the caste. We will be losing our land under rascal and European centered brahmin rule.

India will never work as a country, if country as a whole doesnot gives up on non-existent caste. Removing brahmins (foreigners) from the social fabric of india is the only way to unite India.

Caste Doesn't Exist:

Caste in reality doesn't exist. It is made by brahmins to disconnect indians from the world.

Lies:

Everything a brahmin says is a lie. Recheck 10 times anything said by a brahmin(devilish liars). The lies of brahmins have left indians in an third world. Indians are living in an imaginary world of lies created by the foreigners. Some people think they are very much intelligent than others. Some think they are less intelligent without any reason. Everybody has a same brain why would be someone more intelligent than other.

Tell a brahmin and dalit to read vedas for year and conduct test. Who will answer the best. Or give quantum physics to a dalit and brahmin. Conduct test after a year. Can a brahmin get more marks than dalit or kshatriya or muslim. How are they better than dalit.

Some Indians think they are very powerful than others and some others think they are not powerful without any reason. All the humans have same hands and legs. Nobody is more powerful than others.

Ask a kshatriya to kill you. Give a dalit a weapon and kshatriya a weapon. Can he win or touch a dalit. How is he better than dalit or anyother person.

Opposite of caste System:

Stop trying to get an edge over others. A small edge over others, a little more money.....stop trying. **Let Others Win.** Winning leaves you alone in success. Letting others win, wins you the world.

The only people who develop private armies in India are Brahmins and Muslims. Rajputs are useless substrates of brahmins. The Middle east brothers who act like fighting and make indians clash and get

Indians killed. Indians have small gangs just for fun. But brahmins (rss) and muslims are developing private armies. What are they feared of??

Brahmins who have gone beyond caste and other foolish trash of their mad and dumb clan are always welcome as Indians and world citizens. 4000 years of free food is too much to ask. Get out bastards. Leave India.

Make a note: Kashmir doesn't belong to brahmins or muslims. It belongs to Indians. Brahmins are concerned of only kashmiri pandits in kashmir. Why should whole Indians die for giving our land to brahmins.

Strong No: say strong no to brahmin activists.

If Gandhi and Nehru were equally culprit. Why didn't Godse kill Nehru?
